# YAP PACT STIRS IRE OF SENATE AS JAP VICTORY

Signal Victory for Nipponese Seen in Agreement Reached Over Island.

By J. BART CAMPBELL.  
International News Service.  
Dissatisfaction with the Yap pact between the United States and Japan was more pronounced and widespread in the Senate today than criticism of the four-power Pacific treaty.

Harding Friends See Error. Even Republican Senators friendly to the Administration who believe the

four-power instrument amply protects the interests of the United States in the Pacific expressed the opinion that Japan seemed to have reaped most of the benefits of the Yap agreement.

Democratic Senators who are advocates of the League of Nations were particularly critical of the agreement by which the United States recognizes the mandatory rights accorded to Japan in the Pacific by the Versailles treaty.

A number of them, including Senator Robinson of Arkansas, declared that it looked to them as though Japan had scored a signal diplomatic victory in the four-power and Yap treaties.

Treaty Advocates Dejected. Several Republican Senators who have declared their intention of voting for the four-power pact said they did not think they could support the provision of the Yap agreement by which the United States agrees to establish radio stations in Yap as long as the Japanese make ample provision for them.

Senator Borah of Idaho, leader of the opposition to the Four-Power treaty indicated that he would probably direct the Senate's attention to "glaring objections" to the Yap pact.

It was understood that Borah was contemplating a Senate speech in condemnation of the Yap agreement which would follow closely his bitter arraignment of the Four-Power document.

The ominous silence the Democratic Senators who still reflect the League of Nations' views of former President Wilson, have agreed to preserve with regard to the Four Power pact, is not preventing them from criticizing the issues involved in Yap.

A verbal storm over the latter in the Senate was expected to break at any time.

Word reached Senators that neither the Four Power, nor any of the other treaties or agreements evolved by the disarmament conference would probably be submitted to the Senate until the conference ends.

# PLAN PARLEY FOR ADJUSTING OF ECONOMICS

Meeting on World Finances Will Be Held Ninety Days After Conference, Is Belief.

By GEORGE R. HOLMES.  
(Copyright, 1921, by I. N. S.)

A world conference to discuss economic and financial readjustments will be called within ninety days after the adjustment of the present armament conference, according to the beliefs privately expressed today by influential European statesmen now in Washington.

Their beliefs are shared by some high officials of the Harding Administration. Whether the proposed conference will be held in Washington, in London or in Paris remains to be determined, but the view is held that one of the three capitals will witness the assembly of the world's leading financial and economic figures before March 1.

Strong pressure is being brought to bear upon President Harding, and members of his cabinet, to call the conference in Washington. Foreign visitors now here have gone so far as to impress upon American officials that the success of such a conference depends largely upon America's taking the initiative in calling it to meet here.

Thus far, Administration officials have refused to commit themselves. They have listened attentively, even sympathetically, to the proposals that have been made informally, but have said little.

President Harding informed at least two European statesmen who approached him that he could give the matter no serious consideration until the present Washington conference is ended. To call another world conference while the first is in the making was rushing things too fast, the President believed.

The end of the Washington conference is now in sight. Unless all signs fail, the conference will be out of Washington by New Year, and it will then rest with the Administration as to whether Europe's pleas are to be heeded.

European statesmen, however, assert their belief that if President Harding does not take the initiative, Lloyd George will—and with much lesser chances for success.

Influential members of the Administration are convinced that America cannot escape participation. They merely point to the unsettled state of foreign indebtedness and the fact that America's foreign trade has shrunk 100 per cent since the war ended as twin proofs that America's interests are too vital to permit staying out.

According to the views of European visitors, as expressed to members of the Administration, the conference would deal generally with four pressing problems:

- (1) German reparations.
- (2) Foreign indebtedness.
- (3) Stabilization of exchange rates.
- (4) Tariffs.

The root of the whole situation is in the first two problems, according to Europe's spokesmen. Once settled these two problems, get them on a stable basis so the governments concerned can figure on the future with some degree of certainty, and they believe the rest of the world's economic ills will be well on the road to cure.

Silent on R. R. Lease.  
CLEVELAND, Ohio, Dec. 14.—A. S. Hecker, of the A. S. Hecker company, refused to affirm or deny reports that his company had taken over the New York Central shops at Collingwood, Ohio, a Cleveland suburb, and Elkhart, Ind., under a lease, said to be similar to that under which the Erie shops at Marion are operated.

# 35 LOST WHEN TANKER SINKS OFF KEY WEST

NEW YORK, Dec. 14.—Thirty-five men and a \$1,000,000 cargo of oil have been lost on the oil tanker Santa Rita. The steamer left New Orleans October 20 for Italy, officials of the American Fuel Oil and Transportation Company announced today.

The tanker was due at Spezia, Italy, on November 15. The last report of her was on October 23, when she was sighted off Key West.

The company's officials did not

# give the ship up for lost until today.

In making announcement they said they believed the Santa Rita had gone down in a storm off Key West. The locality is a particularly dangerous one.

The American naval collier Cyclops, which disappeared mysteriously during the war, is supposed to have gone down in the same waters.
